# SIEGE & CONQUEST

Storm the walls of Rome, lay siege to Jerusalem!

Siege and Conquest is a rules expansion and sourcebook for Warhammer Ancient Battles.

Throughout history, Sieges have decided the fates of nations. From the earliest times, people have defended their walls from invaders looking for Conquest.

Featured within this book are the following:

- A historical overview and rules for siege warfare through the Biblical, Classical and Medieval Eras. This allows you to recreate a siege campaign using a series of scenarios, or the option to just move to the final deciding assault! This will allow you to complete a siege game in a couple of hours.
- Additional Conquest scenarios and ideas for multiplayer games.
- Exciting new rules for fighting in villages and cities. These add a new level of tactical play on the tabletop in your games of Warhammer Ancient Battles.
- A full colour section showing a range of fortifications, armies deployed for battle and explanations of the rules in action!

**T**he steamy days of summer are here again and the WSS team has prepared a special issue for you. This is the first time we have published a magazine in August. We're happy to know that our magazine will be sharing deck chairs, armchairs and hammocks with all of you. I know my copy will be accompanying me on my trip around Cambodia, though I think I'll be spending most of the time reading and preparing articles for the September issue. It's hard work being a wargamer!

Now for the latest news on the home front. Getting our web site up and running is taking a little longer than we expected as the person who's doing it for us has been busy with other projects. We hope to have it ready for October. We promise that we will do the best we can and that it will be well worth the wait.

We are also working on a special issue on the Spanish Civil War (1936-1939), which is planned to come out in November. Those who have already seen some of what will be included in the issue were amazed. We hope it's not just because they're friends and that the issue will be widely welcomed.

That said, I hope you enjoy what we have for you in this issue. You'll find articles ranging from the Second World War to the Renaissance period. In this month's dossier we bring you a fantastic account of the adventures and misfortunes of the Spanish Tercios during the Thirty Years' War. Enjoy it!!!
